

ME
MAHESHWARI
ENTERPRISE

How we started

Established in the year 2001, **Maheshwari Enterprise** has been conducting the hardwork, facing all the market challenges with result bound solutions. Having earned the prestigious membership of **JFOA**, we have proved our existence on authentic grounds. Based in Jamnagar, Gujarat, India we are a prominent Manufacturer, Exporter and Supplier of Customised drawing based Ferrous & Non-ferrous metal components & pneumatic components, sheet metal components, precision turned components and many more.

Our possessions

In order to carry the business through a productive channel, we have built a state-of-the-art infrastructure setup. It backs us to undertake and accomplish each assigned project with the result bound solutions with the stipulated period. Spread over a large area, the production unit comprises latest machinery which facilitates drawing, milling, drilling, threading, chamfering, grooving, punching and electroplating. Further all the other sections of quality, engineering, warehouse and packaging are outfitted with advance resources, looked after a team of experienced employees.

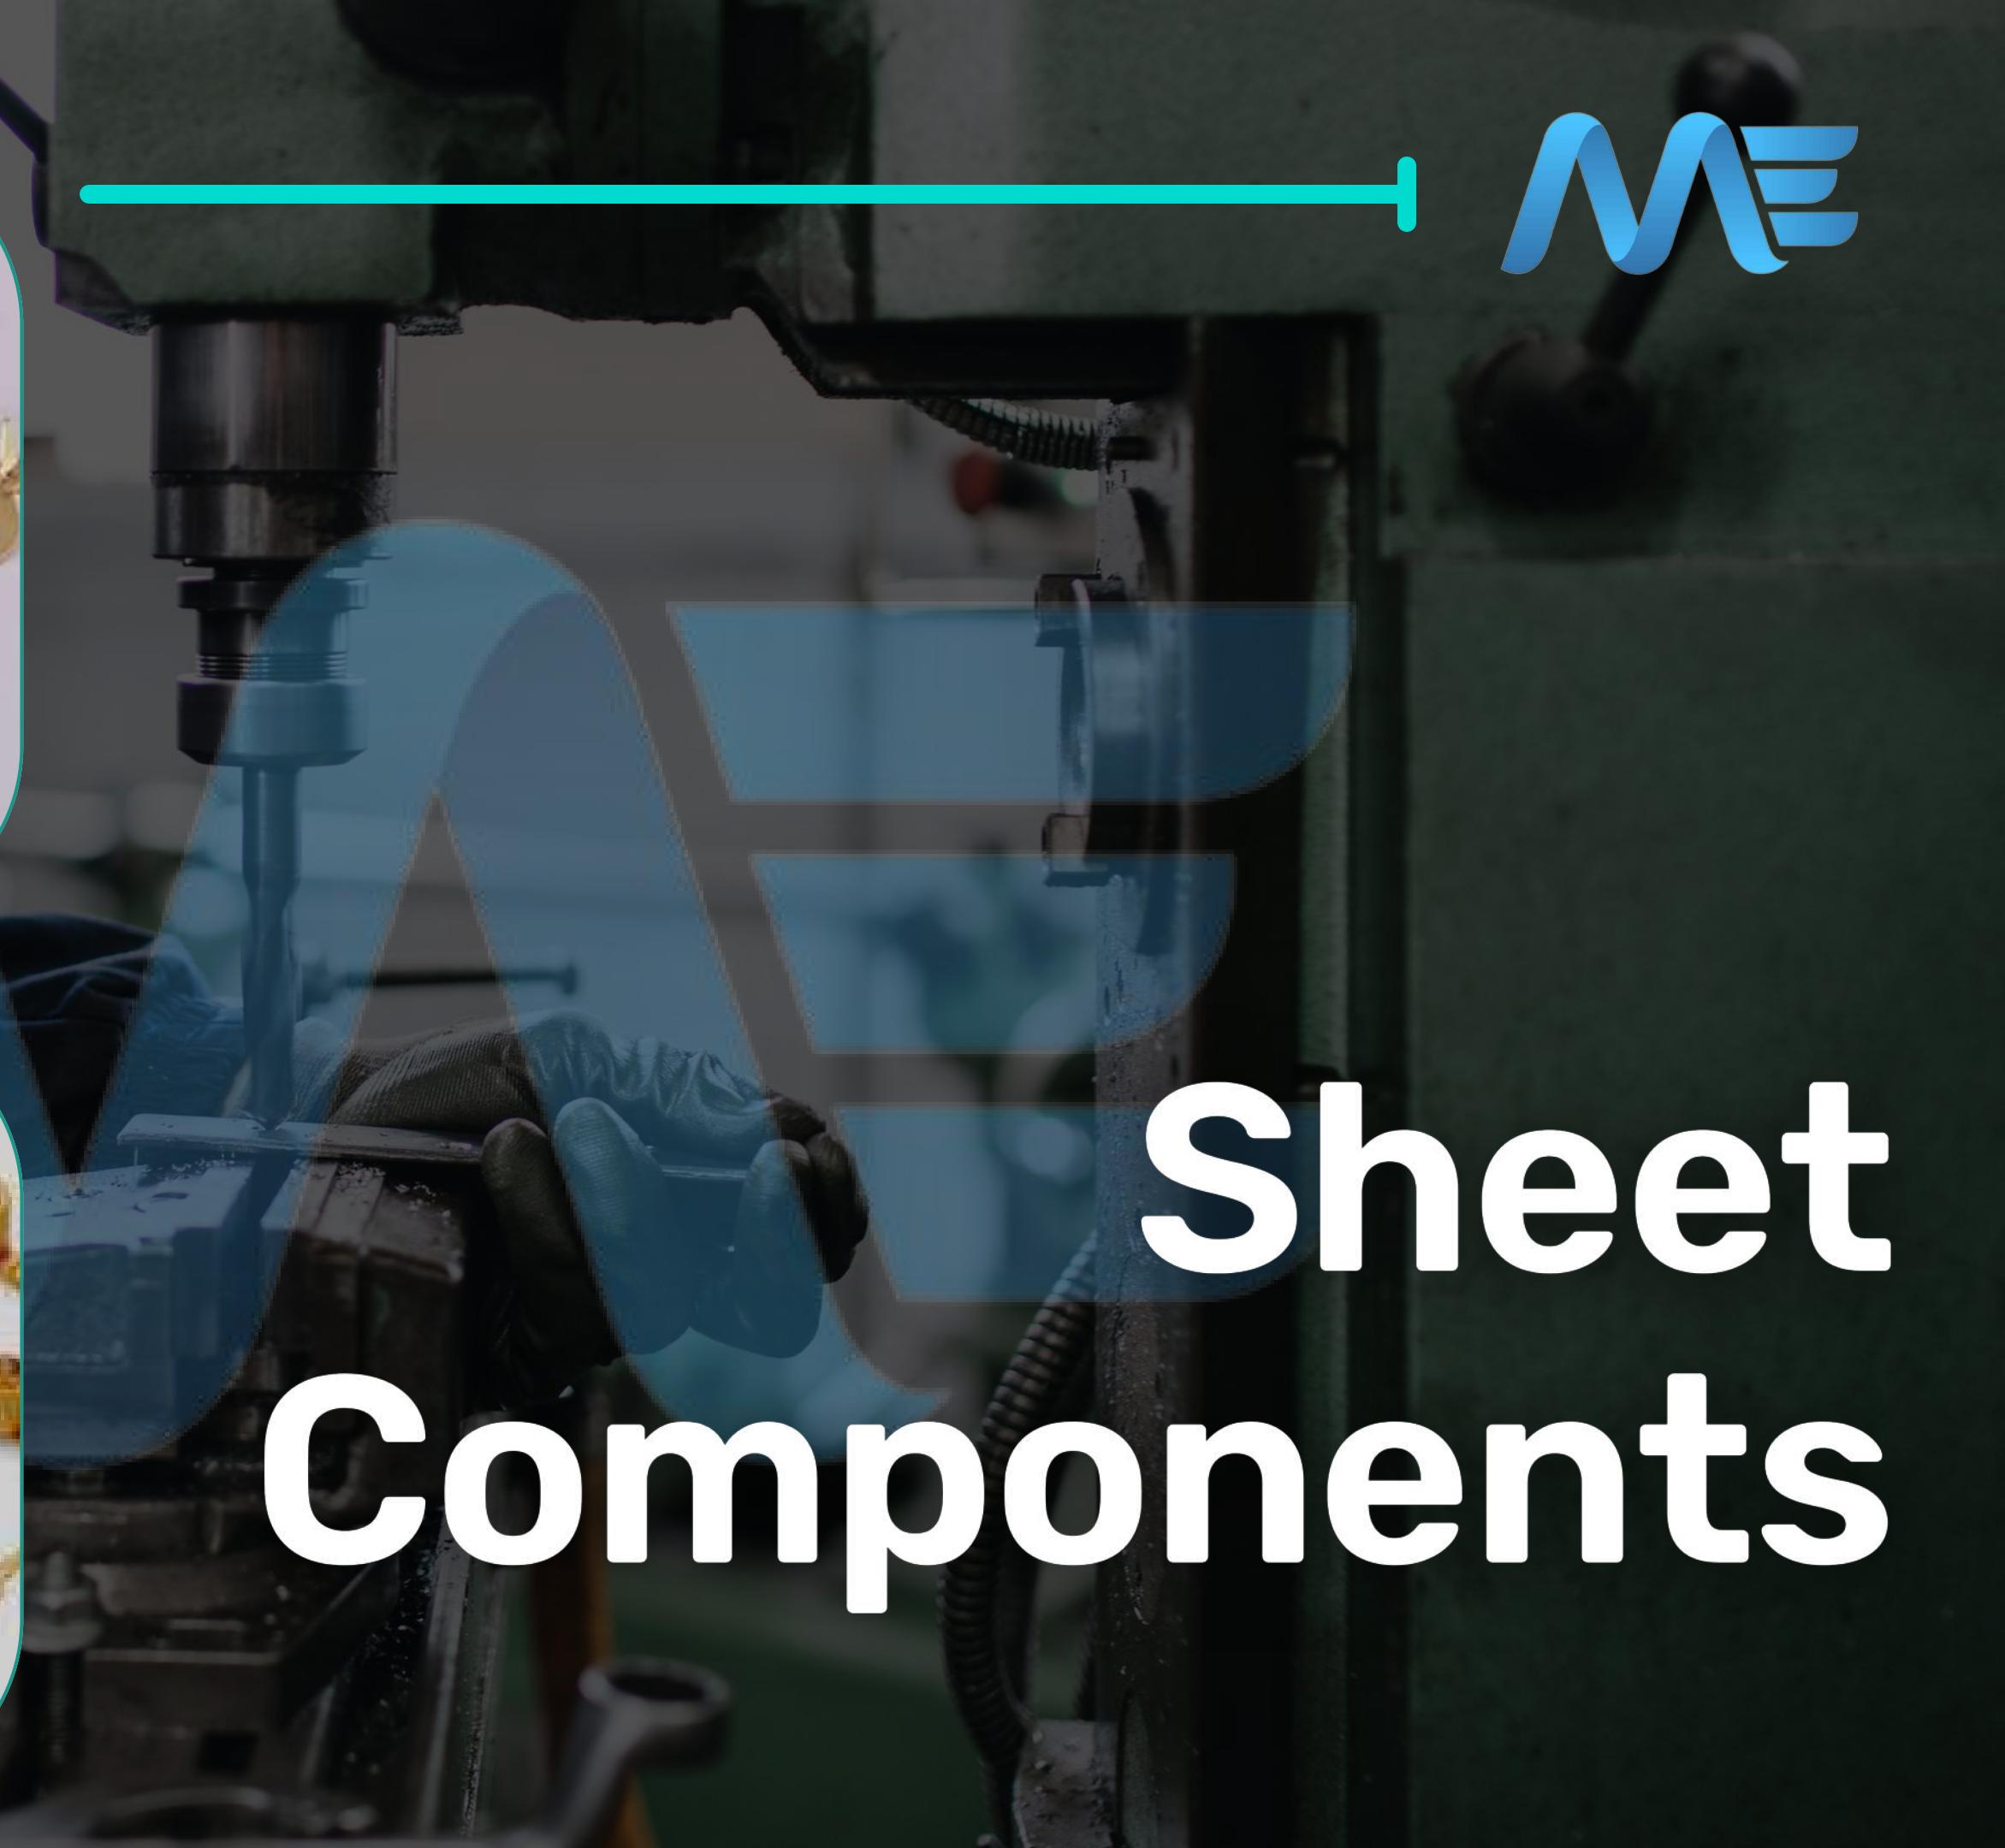

USP
D
Quality &

What we offer

Being a quality destined organization, we lay strong emphasis on product development and updation. All the business activities are carried out with strategic plannings, giving due emphasis on clients drawn specifications. The components such as Brass Plug Pin, Brass Auto Parts, Brass Inserts and Brass Sanitary Fittings are fabricated out of high-grade Brass Spares, making them perfect for usage. Further , all the products are tested on various quality constraints and measuring instruments like micrometer, standard gauge, vernier calliper which are used to determine their high-end brand value in terms of finish, design and durability.
